** Gilmandyke wish to collect and freeze a further 500 units (min) of semen out of these bulls in the weeks following the bull sale if it is convenient for the purchaser. The semen will be for Gilmandyke herd use only. We will liaise transportation of these bulls to their new owner once collections have been met. Please talk to Wade or Pete if you have any further questions about this.

Please note that the PTIC commercial females will be the first lots to sell. Following that, will be the bulls in catalogue order, finishing the sale with the stud heifers.
